

after a sports injury in 1964 to my knee . the pain came and went until the year two thousand when it became constant. when i had a consultation with mr, jafri. who said that surgery was the only answer my stay in the hospital was three days and six weeks, physio. was recommended followed by walking cycling over the next three months. after five months . i now walk garden and cycle without any pain at all.it was well worth while having the knee replacement i would recommend it to anyone regards robert m curno.

Dear Mr Curno

Nice to see you today and glad that you are doing well.

If you get the chance it would be great if you could perhaps write a few paragraphs on how you were before the op and after and a few thoughts on your overall experience for my website.

I think it would really help other patients who are not sure or worried about undergoing knee replacement surgery.

Many thanks

Anwar Jafri
