

I am writing to thank you and all the staff at Nuffield Stockton for the excellent care I received while I was in your care. My replacement knee has been a huge success and has given me a much improved quality of life. I can do a lot of things I had had to give up i.e. golf, walking etc. I would recommend you and your staff to anyone requiring a knee replacement. I did my part by doing all the rehab. exercises I was given to do and by heeding your advice to be patient and build up my walking etc. gradually.

Regards Mr. Norman Gill
